

A FUTURE

OF

CHOICE

IS POSSIBLE

IT'S TIME

YOU

HAD A
CHOICE

A union is a group of workers who come together because they want to have a stronger voice at work. That voice will help them gain respect, rights, and a **better future**.

Unionizing is about giving the workers a **choice**. A choice about whether or not we want a future of low-wage, part-time, temporary work or a future we can all believe in. The future is ours. **The choice we make today is also ours.**
